

Self Exercise for Week 15

Due June 3rd at 3:00 p.m.

Based on the sample program given in lecture slides, add two more tetrominos. Show that the two tetrominos you just add appear in the output of the main function.

Deliverables

Your .zip file should include the following things:

1. Your *.cpp* and *.h* files.
2. A *Makefile*.
3. A *README* file showing how to compile your program as well as the running script.
